# Above The Influence

They think it's cool to smoke  
their days away  
They think it's cool to drown their  
pain in a bottle of Jack

See I'm on that natural high  
The kind of high you can't reach  
even when you're climbing trees

Let's put down our red cups and  
our burning leaves  
And let's save ourselves the head-  
aches, and the hangovers  
The beaming light in our eyes,  
and that walk down the solid  
white line

I refuse to live below my potential  
I refuse to live beside myself

I have to be, I will be, I'm going to  
be, I am
